

Real-time insight on how DuPont Capital has positioned its portfolios as a function of key factors driving the markets.

COMMENTS †

VALUATION	Turkey and Russia are among the most attractive countries from a valuation perspective, albeit with higher than average risk. Thailand, India, and the Philippines appear the most overvalued based on our country valuation model.
RISK	Argentina, Pakistan, and Egypt currently appear the riskiest, while risk levels in Taiwan, Korea, and Czech Republic are more attractive relative to other emerging market countries. Country risk in Greece and Turkey has improved over the past year.
SIGNS OF IMPROVEMENT	Taiwan, Czech Republic, Greece, and Turkey have seen recent signs of improving conditions, while economic conditions in Argentina, Chile, and South Africa have deteriorated.

† Please note the chart and commentary above are as of November 13, 2019, and are subject to change without notice. The above chart is provided to demonstrate our investment philosophy and analytical process only, and should not be considered a recommendation. The country rankings shown will not always reflect the positioning of our portfolio for idiosyncratic or stock selection reasons. The Emerging Markets Equity country valuation metrics above may vary from those of our Emerging Markets Debt strategy due to differences in evaluation measures. Investing involves risks.

OUR COUNTRY ANALYTICS

Our research indicates countries with low equity market valuations and undervalued real effective exchange rates outperform. We utilize our proprietary risk and valuation models to identify countries with low investor expectations, but solid economic fundamentals.

The charts on the preceding page illustrate the output of our country risk and country valuation models, as well as a scoring of any signs of improvement for each country in the MSCI Emerging Markets Index. The scoring is aggregated to generate an overall country ranking.

Our fundamental analysts incorporate several factors in their analysis. Examples include:

Valuation

- ❖ Real Effective Exchange Rates for Currency Valuation
- ❖ Bottom-up P/E ratio for Stock Valuation

Country Risk

- ❖ Political Score
- ❖ Financial Score
- ❖ Economic Score

Signs of Improvement

- ❖ Changes in CDS spreads
- ❖ Estimates revisions

ABOUT OUR FIRM

DuPont Capital Management is an SEC registered investment advisor based in Wilmington, Delaware. Since the firm's establishment in 1993, we've had a long history of developing global investment opportunities in both traditional and alternative strategies across equity, fixed income and alternative investments. Our investment team structure gives us the ability to be flexible and adapt to changing market conditions. DuPont Capital's focus is delivering consistent investment management results for our clients. Our history of institutional asset management is rooted back to 1942 when our former parent company, DuPont, established a pension plan for its employees. Corteva Inc. succeeded DuPont as sponsor of the DuPont Pension Plan in 2019. DuPont Capital is a wholly owned subsidiary of Corteva and continues to manage the legacy DuPont Pension Plan. DuPont Capital's President and CEO, Valerie Sill believes in education and diversity of experience as represented in our investment teams which are comprised of PhDs, engineers, medical doctors, and scientists. We believe their global expertise creates a portfolio implementation edge that benefits our clients.
