

*Real-time insight on how DuPont Capital has positioned its portfolios as a function of key factors driving the markets.*

We believe country selection is critical to successful, risk-managed investing in Emerging Markets Debt. A key element of our approach is our proprietary country selection analytics. Our 7-factor country credit model generates a credit score for each country, which is used to assign the country to either the Mature, Stable, Risky, or Distressed credit categories. We then apply fair value criteria unique to each credit category to assess whether a country is under, over, or fairly valued. Our 'Focus List' contains bonds that are (i) under valued based on our valuation model, and (ii) have an attractive risk/reward profile. The list generally includes bonds from under valued countries and local currency bonds from select fairly valued countries.

*The chart below represents the classification of U.S. Dollar denominated bonds based on the results of our modeling. Changes to the model from the previous quarter have been highlighted.*

**COMMENTS** (as of April 2020)

<b>EMD UNIVERSE MUCH MORE ATTRACTIVE</b>	Massive decline in EMD due to coronavirus has resulted in a huge widening of spreads and much higher yields. The output of our Country Model shows that many countries moved to be more attractively valued. Overall, over 86% of the index and 75% of the countries are in our Under Valued category.
<b>EMD UNIVERSE CREDIT FUNDAMENTALS MOSTLY UNCHANGED</b>	The country credit scores have not changed much yet as the rapidly declining global economy is just starting to impact data. We expect downgrades for some countries to occur over the next few months.
<b>EMD UNIVERSE OIL PRICES</b>	Oil prices plunging from \$61 to \$21 during the quarter is having a significant impact on valuations and credit fundamentals in EMD. Country credit scores for some major oil exporters will most likely decline if prices remain low.

**ABOUT OUR FIRM**

DuPont Capital Management is an SEC registered investment advisor based in Wilmington, Delaware. Since the firm's establishment in 1993, we've had a long history of developing global investment opportunities in both traditional and alternative strategies across equity, fixed income and alternative investments. Our investment team structure gives us the ability to be flexible and adapt to changing market conditions. DuPont Capital's focus is delivering consistent investment management results for our clients. Our history of institutional asset management is rooted back to 1942 when our former parent company, DuPont, established a pension plan for its employees. Corteva Inc. succeeded DuPont as sponsor of the DuPont Pension Plan in 2019. DuPont Capital is a wholly owned subsidiary of Corteva and continues to manage the legacy DuPont Pension Plan.

DuPont Capital's President and CEO, Valerie Sill believes in education and diversity of experience as represented in our investment teams which are comprised of PhDs, engineers, medical doctors, and scientists. We believe their global expertise creates a portfolio implementation edge that benefits our clients.
