Turnover(%) ⁴	100.21	
Turnover(%) ⁴ (ex. ETFs)	96.33	

INVESTMENT APPROACH

The strategy exploits market inefficiencies, using qualitative techniques to systematically target a broad array of factor premia within the asset class. Our proprietary models combine multi-factor alpha forecasts and stock-specific timing indicators to construct a diversified, risk-controlled portfolio.

- ❖ Data driven and comprehensive quant methodology processes over 250 individual data points and harnesses more than 25 factors on each stock in the universe.
- ❖ Computed estimates for normalized earnings, cash flow, and sustainable growth are synthesized with market data to generate factor libraries based around valuation, fundamental quality, and sentiment metrics.
- ❖ Proprietary alpha scores provide the cornerstone of portfolio construction methodology. Optimization software is used as an active risk-budgeting tool by calibrating aggregate factor tilts across attractively ranked stocks. The software also controls liquidity and industry exposures.

We believe that the breadth and composition of the asset class fit a disciplined, data-driven intensive approach to information processing and factor-based investing.

ABOUT OUR FIRM

DuPont Capital Management is an SEC registered investment advisor based in Wilmington, Delaware. Since the firm's establishment in 1993, we've had a long history of developing global investment opportunities in both traditional and alternative strategies across equity, fixed income and alternative investments. Our investment team structure gives us the ability to be flexible and adapt to changing market conditions. DuPont Capital's focus is delivering consistent investment management results for our clients. Our history of institutional asset management is rooted back to 1942 when our former parent company, DuPont, established a pension plan for its employees. Corteva Inc. succeeded DuPont as sponsor of the DuPont Pension Plan in 2019. DuPont Capital is a wholly owned subsidiary of Corteva and continues to manage the legacy DuPont Pension Plan.

DuPont Capital's President and CEO, Valerie Sill believes in education and diversity of experience as represented in our investment teams which are comprised of PhDs, engineers, medical doctors, and scientists. We believe their global expertise creates a portfolio implementation edge that benefits our clients.

GIPS REPORT: DUPONT CAPITAL SMALL CAP EQUITY

Year	Gross Return (%)	Net Return (%)	Benchmark Return (%)	Composite 3-year Std Deviation (%)	Benchmark 3-year Std Deviation (%)	Number of Portfolios	Internal Dispersion (%)	Composite Assets (\$ millions)	Total Firm Assets (\$ millions)

1. DuPont Capital Management (DCM) claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. DCM has been independently verified for the periods January 1, 1993 through December 31, 2020.
2. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The DCM Small Cap Equity composite has had a performance examination for the periods April 1, 1999 (inception) through December 31, 2020. The verification and performance examination reports are available upon request.
3. DCM is an investment adviser registered under the Investment Advisers Act of 1940. DCM is a wholly owned subsidiary of Corteva, Inc. Registration does not imply a certain level of skill or training.
4. DCM Small Cap Equity (inception date – 04/01/1999) includes all accounts that are primarily invested in U.S. small cap equity securities utilizing a value-based strategy. This strategy, which is industry neutral, utilizes a multi-factor model that includes proprietary estimates of normalized earnings, normalized cash flow, sustainable growth, and quality.
5. The composite benchmark is the Russell 2000® Index, which is based on 2,000 small-cap companies in the Russell 3000® Index. The returns for this index do not include any transaction costs, management fees or other costs. You cannot directly invest in this index. Benchmark returns are not covered by the report of independent verifiers.
6. Performance results reflect the reinvestment of dividends and other earnings. Valuations are computed and performance is reported in U.S. dollars. Composite returns are calculated net of non-reclaimable withholding taxes. Gross-of-Fees returns are presented before management and custodial fees but after all trading expenses. Net-of-Fees returns are calculated monthly by deducting 1/12th of the highest applicable fee rate in effect for the respective time period from the gross composite return. The DCM Small Cap Equity fee schedule is as follows: 0.85% first \$25 million, 0.75% next \$25 million, 0.70% next \$25 million, 0.65% thereafter.
7. DCM may use derivatives, such as index futures, in the accounts in order to gain exposure to the market more rapidly or less expensively than could be accomplished through the use of securities.
8. Internal dispersion is calculated using the equal-weighted standard deviation of annual gross returns of those portfolios that were included in the composite for the entire year. For those periods with five or fewer accounts included in the entire year, "N/A" is noted as the dispersion is not considered meaningful.
9. DCM uses temporary accounts (rebalance accounts) to temporarily hold significant cash flows until they are invested according to the composite strategy or disbursed. DCM defines a significant cash flow for this composite as an external cash flow within a portfolio equal to or greater than 10% of the portfolio's beginning of day market value.
10. Past performance is not indicative of future performance. It should not be assumed that results in the future will be profitable or equal to past performance. These performance disclosures apply to all of the DCM investment performance data presented herein.
11. This composite was created in April 1999. A list of composite descriptions is available upon request as are policies for valuing investments, calculating performance, and preparing GIPS Reports.
12. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.
