

Real-time insight on how DuPont Capital has positioned its portfolios as a function of key factors driving the markets.

We believe country selection is critical to successful, risk-managed investing in Emerging Markets Debt. A key element of our approach is our proprietary country selection analytics. Our 7-factor country credit model generates a credit score for each country, which is used to assign the country to either the Mature, Stable, Risky, or Distressed credit categories. We then apply fair value criteria unique to each credit category to assess whether a country is under, over, or fairly valued. Our 'Focus List' contains bonds that are (i) under valued based on our valuation model, and (ii) have an attractive risk/reward profile. The list generally includes bonds from under valued countries and local currency bonds from select fairly valued countries.

The chart below represents the classification of U.S. Dollar denominated bonds based on the results of our modeling. Changes to the model from the previous quarter have been highlighted.

Key vs Prior Quarter: More Attractive Less Attractive Upgraded Downgraded			

COMMENTS (as of October 2022)

EMD UNIVERSE MORE ATTRACTIVE	Spreads and yields increased in EMD over the quarter due to weaker economic growth and tighter monetary policies in many countries. EMD is more attractively valued with over 50% of the index in the under-valued category.
EMD UNIVERSE FUNDAMENTALS STEADY	Despite weaker global growth, the country fundamental ratings in our model remained steady this quarter with no changes.
EMD UNIVERSE WEAK BUT WITH EXCEPTIONS	EMD Local Currency performed poorly this quarter, but several countries have surprisingly had positive returns for the year including Brazil, Turkey, and the Dominican Republic.

ABOUT OUR FIRM

DuPont Capital Management is an SEC registered investment advisor based in Wilmington, Delaware. Since the firm's establishment in 1993, we've had a long history of developing global investment opportunities in both traditional and alternative strategies across equity, fixed income and alternative investments. Our investment team structure gives us the ability to be flexible and adapt to changing market conditions. DuPont Capital's focus is delivering consistent investment management results for our clients. Our history of institutional asset management is rooted back to 1942 when our former parent company, DuPont, established a pension plan for its employees. Corteva Inc. succeeded DuPont as sponsor of the DuPont Pension Plan in 2019. DuPont Capital is a wholly owned subsidiary of Corteva and continues to manage the legacy DuPont Pension Plan.

DuPont Capital's President and CEO, Valerie Sill believes in education and diversity of experience as represented in our investment teams which are comprised of PhDs, engineers, medical doctors, and scientists. We believe their global expertise creates a portfolio implementation edge that benefits our clients.
